

# Preparing for NAPLAN with BYOD

There are a few steps required to ensure NAPLAN can be undertaken using BYOD computers. Please follow the following steps to ensure your child is ready:

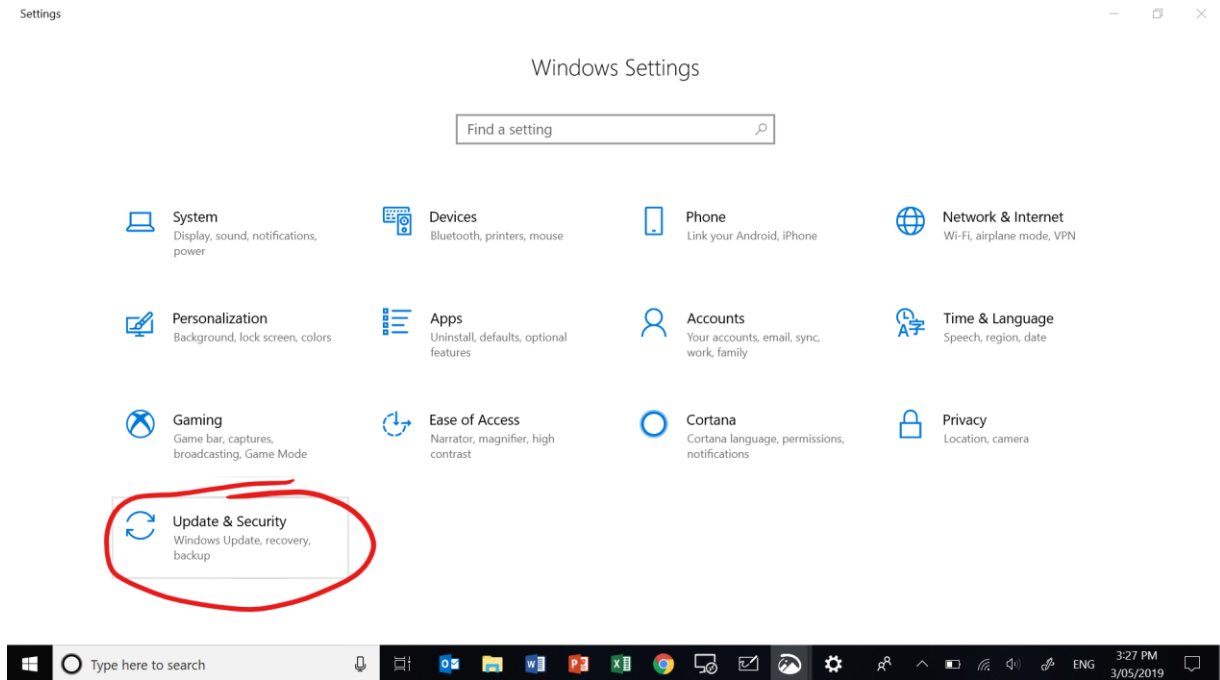

1. Check to see if the NAPLAN Locked Down Browser on their desktop.

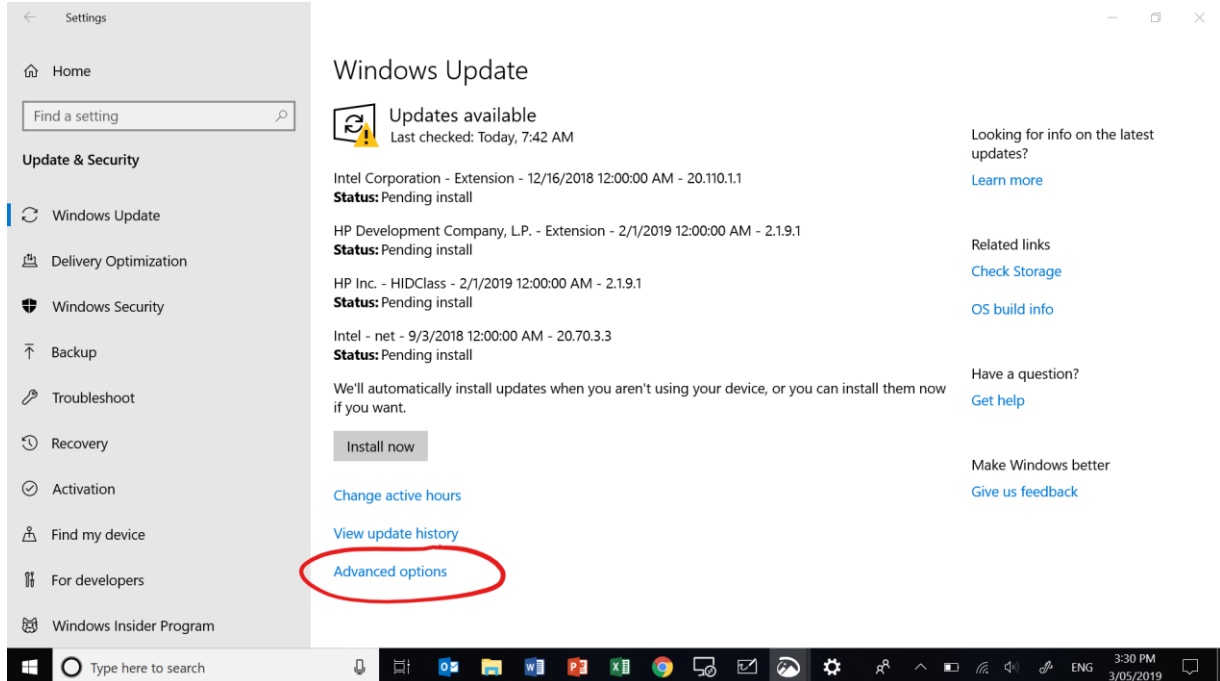

2. If this is not installed, please download the installer from the 2019 NAPLAN Connect Library. Once this is installed please complete the following steps.
3. Click the start button (1) then settings (2).

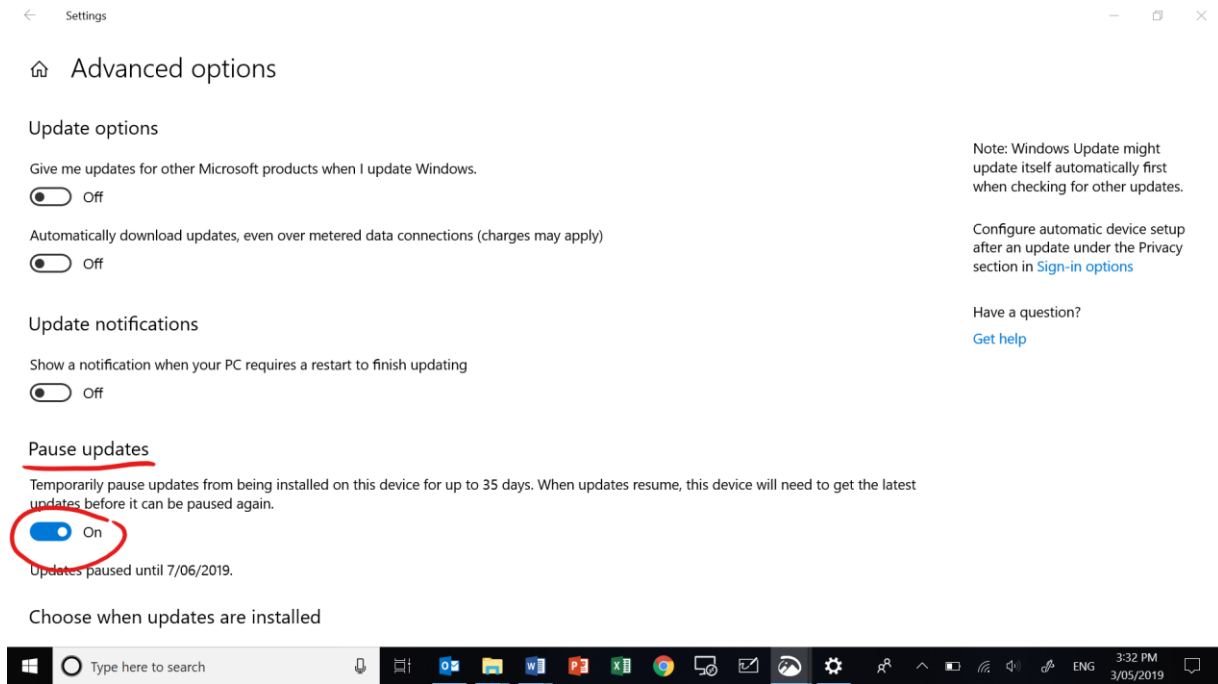

#### 4. Click 'Update and Security'.

#### 5. Click 'Advanced Options'.

## 6. Turn on 'Pause date'.

This prevents Windows Update from changing computer settings during the NAPLAN period, which may cause the Locked Down Browser from functioning properly.
